MEMORANDUM FOR: CHIEF SE DIVISION

SUBJECT: Monthly Report of Activities of SE/PC/1

1. The activities of SE-~~4~~ during this past month have been handicapped in the field of agent infiltration and resupply by the Balkan winter, which has rendered operations into Albania all but impracticable. Several attempts were made to infiltrate a four-man team into the southeastern quadrant of the country to determine the reaction to a December propaganda supply drop, but none was successful, and it has been decided to postpone this type of operation until the cold weather breaks. One air penetration of the country was successful, however, and a thousand packages of propaganda supplies and more than 200,000 leaflets were dropped into Tirana and northern Albania on the 21st of January.

2. On the political front, Radio Free Albania continued daily broadcasts, the semi-monthly newspaper Shqiperia continued to publish -- but now from Rome, instead of New York. The change in location, it is believed, has already resulted in higher quality and a fresher outlook from an editorial point of view. Within the National Committee itself, our pressure for a broadening of the political base of this association continued, as did the resistance to this reform of the largest political party, which opposes any possibility of a dilution of its influence. The Committee, however, continues to function as a viable base for our propaganda offensive against this satellite.

3. The branch continued to press for a final liquidation of Project BGSPEED, and prospective customers for the project's main physical asset, the M/V Juanita, are being contacted. It will be late spring, however, before this matter is finally disposed of.
